

Sprint 4 Report

Product Name: recipR

Team Name: Sausage Party

Date: 11/29/17

Actions to stop doing:

We need to stop going off topic when doing work and focusing on the task at hand. Our workflow would be much more efficient if we were able to continuously concentrate on what we were doing.

Actions to start doing:

We need to start doing more of the scrum best practices. For this sprint we were doing some of these practices like, planning poker, documentation, and peer review, but we could do more like using quality gates and static analysis tools.

Actions to keep doing:

One thing we did well was writing unit tests for various functions. This helped to test if specific functions were well written and working, and if they weren't helped to change functionality.

Work completed/not completed:

User Stories completed:

- As a user, I would like to search for recipes based on my specific wants and access results easily.
- As a user, I would like to use a site I can access easily online.
- As a user, I want to look at a pretty webpage.

All user stories were completed.

Work completion rate:

Total Number of User Stories Completed: 3

Total Number of Estimated Ideal Work Hours Completed: 9.5

Total Number of Days: 14

User Stories a Day: 0.21

Ideal Work Hours a Day: 0.68
