

Sprint 3 Report

Product Name: recipR

Team Name: Sausage Party

Date: 11/19/17

Actions to stop doing:

As usual we need to stop getting distracted. This will help productivity and it is something to strive for. Another thing we need to stop doing is not being prepared to scrum meetings. We should before the scrum meeting think what we are going to say, in order to say something substantial.

Actions to start doing:

The team should start drawing diagram for certain problems we have. Having a visual would be helpful in going about the problems the team has. Sometimes looking at a drawing is easier than looking at a block of code. Looking at the picture could even help us improve our code.

Actions to keep doing:

Debugging was really useful for this sprint. Moving forward we will definitely keep doing a debugging section in our webpage. This will feature important values and elements that need to be kept right. By doing this we will save time.

Work completed/not completed:

User Stories completed:

- As a user, I would like to find a recipe that uses certain ingredients I already have at home.**
- As a user, I want to be able to find low-calorie, healthy foods for my diet.**
- As a technologically inept individual, I want a program that is easy to use so I don't get lost/confused.**
- As an ovo vegetarian, I would like to make sure that my dietary needs are taken into account.**

User Stories not completed:

All user stories for sprint 3 were completed.

Work completion rate:

Total Number of User Stories Completed: 4

Total Number of Estimated Ideal Work Hours Completed: 15.5

Total Number of Days: 14

User Stories a Day: 0.28

Ideal Work Hours a Day: 1.107
