

Sprint 2 Report

Product Name: recipR

Team Name: Sausage Party

Date: 11/05/17

Actions to stop doing:

The team should try to stop getting sidetracked. Sometimes we get sidetracked and go on tangents for a little, which isn't a big deal but productivity would be better if we stopped.

Actions to start doing:

The team should start trying to talk at set intervals during coding sessions. Sometimes we get stuck and then our workflow is stopped. If we talked at set intervals, this period of inactiveness would stop as well.

Actions to keep doing:

Communication has been going well. We've been doing well in talking about certain problems we're facing and the resources we've been using for the API calls we've been trying to make.

Work completed/not completed:

User stories completed:

- As a developer, I want to make an API call from the website, so that we can improve it from there.

- As a user, I want to be able to find a recipe for the type of food I am currently craving.

- As a user, I want to be able to find low-calorie, healthy foods for my diet.

User stories not completed:

- As a chef, I want to add new foods to my menu, so that my restaurant can make money.

User stories not completed:

All user stories for sprint 2 were completed.

Work completion rate:

Total Number of User Stories Completed: 5

Total Number of Estimated Ideal Work Hours Completed:

Total Number of Days: 14

User Stories a Day: 0.357

Ideal Work Hours a Day: 2.23
